Mr. Jeff Edwards, Vice President  
Swire Coca Cola  
875 South West Temple  
Salt Lake City, UT 84101

Dear Mr. Edwards:

This correspondence refers to the underground storage tank (UST) removal report, dated March 8, 1999, that was prepared by ATC Associates, Inc. for the Swire Coca Cola, Inc. facility located in Chinle, AZ, on land of the Navajo Nation.

Our review of the closure documents and analytical results of soil samples collected at the UST site indicates no hydrocarbon concentrations above appropriate EPA, Region IX or tribal soil cleanup levels.

The information submitted has assisted EPA in assessing the status of this site, where two USTs were removed on November 11, 1998. This site does not appear to pose a current threat to human health and the environment. EPA is not requiring further action at this time.

Sincerely,

Lester Kaufman, Chief  
Underground Storage Tanks Program Office
