Dear Mr. Bush:

This correspondence refers to the San Carlos School Maintenance Facility where two Underground Storage Tanks were removed on July 12, 1991.

The additional information received on the site from Mary Kay Stevens, Environmental Manager of the San Carlos Tribe and a file review of all previous data has assisted EPA in assessing the status of this site. It does not appear to currently pose a threat to human health and the environment. **EPA does not require further action at this time.**
