Ms. Lesa Flores, Environmental Officer  
Environmental Protection Office  
Colorado River Indian Tribes  
Parker, AZ 85344

Dear Ms. Flores:

This correspondence refers to the underground storage tank (UST) removal report, dated September 21, 1998, prepared by Don Peterson Engineers, Inc. for the Ellis Marine site, located in Parker, AZ, on land of the Colorado River Indian Tribes. This site is located within the construction zone of the new Blue Water Resort and Casino. A small volume of contaminated soil from the site has been removed and the existing buildings have been leveled during grading of the area.

Our review of the closure documents and analytical results of soil samples collected at the UST site indicates no hydrocarbon concentrations above appropriate EPA, Region IX or tribal soil cleanup levels.

The information submitted has assisted EPA in assessing the status of this site, where three USTs were removed on September 4, 1998. This site does not appear to pose a current threat to human health and the environment. EPA is not requiring further action at this time.

Please call Walt Guggenheimer at (415) 744-2094, if you have questions or need more information.

Sincerely,

Lester Kaufman, Chief  
Underground Storage Tanks Program Office
