Dear Mr. Sievert,

This is in response to the report entitled "Phase I Tank Closure, UST Removal & Remedial Action" from Environmental Aspects dated June 16, 1989.

EPA has reviewed the activities conducted related to tank closure, site assessment and remediation. We have determined that the results obtained are acceptable under the Federal UST Regulations 40 CFR 280 and therefore approve the site closure.

If you should have any questions please feel free to contact me at (415) 744-1640.

Sincerely,

A handwritten signature in cursive script, appearing to read "Eric Yunker", is written above the typed name.
