Ms. Janet Bollmann  
Department of Environmental Quality  
Gila River Indian Community  
P. O. Box 97  
Sacaton, AZ 85247

Dear Ms. Bollmann:

The U. S. Environmental Protection Agency (EPA) has received the analytical results from soil samples taken at the Gila River Farm site. Soil contamination encountered during the removal of four underground storage tanks (USTs) has been remediated by land farming to below action levels.

The information submitted has assisted EPA in assessing the status of this site, where four underground storage tanks (USTs) were removed on October 15, 1997. This site does not appear to pose a current threat to human health and the environment. EPA is not requiring further action at this time.

If new USTs are installed at the site, Tank Notification Form # 7530-1 must be completed and sent to this office within 30 days after startup of the new UST system. A copy of this form is enclosed for your information.

Please call Walt Guggenheimer at (415) 744-2094, if you have questions or need more information.

Sincerely,

Lester Kaufman, Chief  
Underground Storage Tanks Program Office

Mr. Thomas A. Wood  
Wood's Crop Dusting  
21700 Agnes Wilson Rd.  
P. O. Box 2216  
Poston, AZ 85371

Dear Mr. Wood:

The U. S. Environmental Protection Agency has received the analytical results from samples taken in the bottom of the tank pit at the Wood's Crop Dusting site, after the excavation of contaminated soil had been completed. The site is located on land of the Colorado River Indian Tribes.

The information submitted has assisted EPA in assessing the status of this site, where three underground storage tanks (USTs) were removed on July 16, 1997. This site does not appear to pose a current threat to human health and the environment. EPA is not requiring further action at this time.

If new USTs are installed at the site, Tank Notification Form # 7530-1 must be completed and sent to this office within 30 days after startup of the new UST system. A copy of this form is enclosed for your information.

Please call Walt Guggenheimer at (415) 744-2094, if you have questions or need more information.

Sincerely,

Lester Kaufman, Chief  
Underground Storage Tanks Program Office
