Mr. Roger Burton
Director Environmental Compliance
Giant Industries, Inc.
23733 North Scottsdale Road
Scottsdale, AZ 85255

Dear Mr. Burton:

This correspondence refers to the underground storage tank (UST) removal report, dated May 1, 2002, prepared by Basin Engineering, Inc. for the removal of six USTs from the Conoco service station in Kayenta, Arizona, on land of the Navajo Nation.

Our review of the closure documents and analytical results for soil samples collected at the UST site indicates no hydrocarbon concentrations above appropriate EPA, Region IX or Navajo Nation EPA (NNEPA) soil cleanup levels.

The information submitted has assisted EPA in assessing the status of this site, where six USTs were removed on April 16, 2002. This site does not appear to pose a current threat to human health and the environment. Therefore, EPA is not requiring further action at this time.

If new USTs are installed at the site, Tank Notification Form #7530-1 must be completed and sent to this office within 30 days after startup of the new UST system. A copy of this form is enclosed for your information. Please call Walt Guggenheimer of my staff at (415) 972-3377 if you have questions or need more information.

Sincerely,

A handwritten signature in black ink, appearing to read "Lester Kauffman".

Lester Kauffman, Manager
Underground Storage Tanks Program Office
