23733 N Scottsdale Road
Scottsdale, AZ 85255

Subject: **Mustang 7601 Service Station, St. Michael, AZ (NAV-117)**

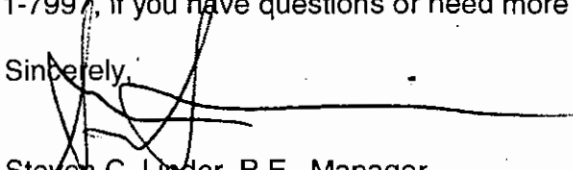

Dear Mr. Burton:

This correspondence refers to the removal of three underground storage tanks (USTs) prior to the installation of three new fiberglass tanks in November 2006, at the Mustang 7601 facility, located in San Michael, AZ, on fee land within land of the Navajo Nation.

The analytical results for soil samples collected at this site indicate no hydrocarbon concentrations above appropriate EPA, Region IX or Navajo Nation EPA (NNEPA) soil cleanup levels. The information submitted has assisted EPA and NNEPA in assessing the status of this site, where three USTs were removed in October 2006. Based on this data, this site does not appear to pose a current threat to human health and the environment. Therefore, EPA and NNEPA are not requiring further action at this time.

Please call Walt Guggenheimer of my staff at 415-972-3377 or Henry Haven of the Navajo Nation EPA at 928-871-7997, if you have questions or need more information.

Sincerely,

Steven C. Linder, P.E., Manager
Underground Storage Tanks Program Office
