Dear Ms. Garnenez:

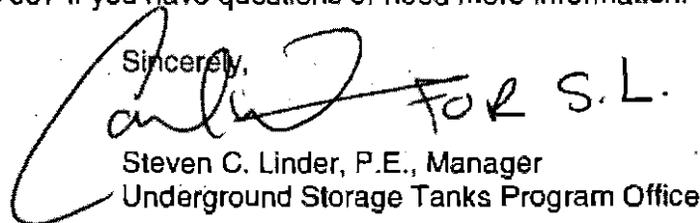

This correspondence refers to the monitoring report dated December 6, 2007, that was prepared by ASCG, Inc. for the NTUA District Office in Kayenta, Arizona, on land of the Navajo Nation.

Our review of the closure documents and analytical results for soil samples collected at this site indicate no hydrocarbon concentrations above appropriate EPA, Region IX or Navajo Nation EPA (NNEPA) soil cleanup levels.

The information submitted has assisted EPA and NNEPA in assessing the status of this site, where two underground storage tanks were removed in April 1992. This site does not appear to pose a current threat to human health and the environment. Therefore, EPA and NNEPA are not requiring further action at this time.

Please call Walt Guggenheimer of my staff at (415) 972-3377 or Henry Haven of the NNEPA at 928-871-7997 if you have questions or need more information.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Linder" followed by "FOR S.L." in a larger, more prominent script.
